

ARDEX CPD SEMINARS

ARDEX UK is committed to providing RIBA approved Continuing Professional Development Seminars that allow an attendee to improve and broaden their knowledge and skills base within the key construction industry sectors of tiling and flooring.

The knowledge gained through an ARDEX CPD will have a positive impact on an attendees ability to specify and implement best practice, leading to more accurate specifications, an increase in the quality of work carried out on-site and ultimately a greater reliability in design.

ARDEX UK offers the following CPD Seminars, to arrange a seminar please use the booking form on the reverse of this sheet:

The Installation of Ceramic Tiling

'The Installation of Ceramic Tiling' is a 45-60 minute presentation which covers the installation of ceramic tiling across a wide range of locations such as commercial and domestic showers, swimming pools and surrounds and commercial environments.

Ceramic tiling is a versatile and durable floor and wall finish when specified and installed correctly.

The objective of 'The Installation of Ceramic Tiling' seminar is to convey the essential elements of correct specification and installation.

The seminar will include the presentation of RIBA assessed summary papers entitled:

- 'Ceramic Floor Tiling - Avoiding Failures'
- 'Adhesives and Bedding'

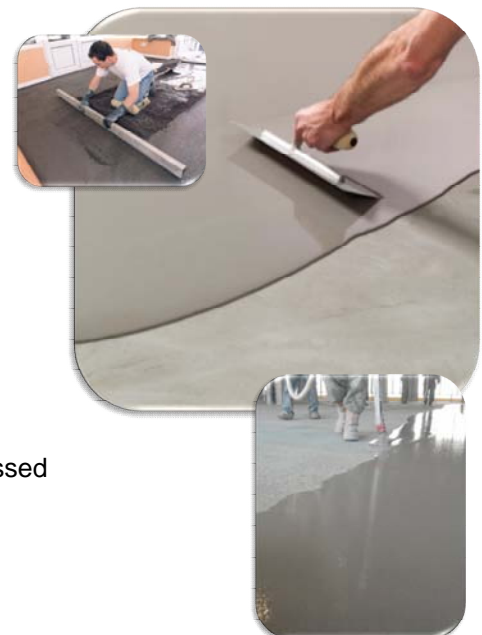

Screeding, Levelling and Sub-Floor Preparation

'Screeding, Levelling and Sub-Floor Preparation' is a 45-60 minute presentation which covers the installation of screeds, smoothing compounds, damp proof membranes and rapid drying systems.

A wide range of situations will be covered including rapid drying and wear resistant screeds, rapid sub-floor repairs and an overview of fast track flooring construction.

The seminar will include the presentation of RIBA assessed summary papers entitled:

- 'Screeds and Sub-Floors'
- 'Methods of Testing Floor Screeds'
