

CPD
ACADEMY

ARDEX UK is committed to providing RIBA approved Continuing Professional Development Seminars that allow an attendee to improve and broaden their knowledge and skills base within the key construction industry sectors of tiling and flooring.

The knowledge gained through an ARDEX CPD will have a positive impact on an attendees ability to specify and implement best practice, leading to more accurate specifications, an increase in the quality of work carried out on-site and ultimately a greater reliability in design.

ARDEX UK offers the following CPD Seminars, to arrange a seminar please use the booking form at the end of this document:

SPECIFY WALL & FLOOR TILING WITH CONFIDENCE

This course aims to help you:

- ▶ Make informed choices when specifying wall and floor tiling by considering the impact that tiles, backgrounds and finished environments will have on the adhesive and grout specification.
- ▶ Learn how to avoid common installation failures through optimum product specification and guidance on best practice.
- ▶ Feel confident about selecting and specifying the appropriate tile fixing solutions in most situations.

SPECIFY TILING IN SWIMMING POOLS AND LEISURE CENTRES

This course aims to help you:

- ▶ Make informed choices when specifying tiling in swimming pools and leisure areas by considering the impact that tiles, backgrounds, water chemistry and the finished environments will have on the adhesive and grout specification.
- ▶ Learn how to avoid common failures through optimum product specification and guidance on best practice.
- ▶ Feel confident about selecting and specifying the appropriate tile fixing solutions in most wet leisure situations.

CPD
ACADEMY

SPECIFY NATURAL STONE FLOOR AND WALL TILING WITH CONFIDENCE

This course aims to help you:

- ▶ Make informed choices when specifying natural stone wall and floor tiling by considering the impact that tiles, backgrounds and finished environments will have on the adhesive and grout specification.
- ▶ Learn how to avoid common natural stone installation failures through optimum product specification and guidance on best practice.
- ▶ Feel confident about selecting and specifying the appropriate tile fixing solutions for natural stone in most situations.

SCREEDING, LEVELLING AND SUB-FLOOR PREPARATION

This course aims to help you:

- ▶ Understand the correct installation of screeds, smoothing compounds, damp proof membranes and rapid drying systems.
- ▶ A wide range of situations will be covered including pumped applications, wear resistant screeds, rapid sub-floor repairs and an overview of fast track flooring construction.

Remember, you can request **free** on-site training by filling in the booking form on the next page.
