

# RAPID NATURAL STONE TILING WITHOUT WATER STAINING...

## ...NO SWEAT WITH NEW ARDEX NATURAL STONE ADHESIVES AND GROUTS

Rapid drying and hardening natural stone products from ARDEX work together as an integrated system for your piece of mind. Each product combines extensive research and development with feedback from natural stone fixers and suppliers to ensure absolute product compatibility and market-leading performance. All ARDEX natural stone products feature our unique 'RAPIDRY FORMULA' technology, delivering a practical solution to the problem of water staining in natural stone tiles, by 'locking' the mix water within the mortar, virtually eliminating the risk of water staining to the tile edge and/or face.

New to the range are ARDEX S 20 flexible adhesive for bed thickness 5-20mm, ideal for fixing uncalibrated natural stones, ARDEX-FLEX 7001 W white flexible adhesive for fixing translucent marble and natural stone tiles to timber floors and ARDEX MG a rapid drying marble and natural stone grout that reduces the risk of water staining to tile edges.

Get your copy of our new natural stone systems brochure by calling 01440 714939 or email: [info@ardex.co.uk](mailto:info@ardex.co.uk) alternatively, visit ARDEX online: [www.ardex.co.uk](http://www.ardex.co.uk) for full information on all ARDEX products.
